

Texas History Outline & Comparative Analysis Sheet

- I.** As you read through *Stephen Austin's Address*, fill in the outline blanks. This activity should provide you with a basic outline of the history of this Lone Star Republic before annexation. (*Hint:* Outlines usually follow paragraphs. This is a good template to use when writing your own speeches, essays, and historical writings because it helps you create the "skeleton" you will use.)
- II.** As you work through the outline, list words in the right box that you remember "hearing" before in historic American documents. Save this outline and list in your notebook because you will need this list for another lesson.
- III.** After you finish I. and II., re-visit the document for any messages that would fit an emerging democracy today and record these words in section III.

TEXAS OPENED FOR SETTLEMENT

- A.
B.
C. FIRST COLONY

1.
2.
